Work Experience

Software Engineer

Jan 2025 - Present

Fidenz (Pvt) Ltd | Sri Jayawardanapura Kotte, Sri Lanka | Full-time

- Contributing to the development of a cloud-based solution that exposes consumer and business data via web interface and API, utilizing **SSIS packages** and **MS SQL Server** for data manipulation and creating an administration portal for effective data management using advanced sql methods (**Stored Procedures, functions, CTE, TVP**, etc).
- Designed and optimized RESTful APIs to securely expose consumer and business data to clients and third-party systems.

Associate Software Engineer

Nov 2023 - Dec 2024

Fidenz (Pvt) Ltd | Sri Jayawardanapura Kotte, Sri Lanka | Full-time

- Developed a web-based Resource Management Portal V1.0 using **React**, **.NET Core**, enhancing resource allocation, device management, and event management while improving performance and user experience.
- Contributed to full-stack product maintenance and upgrades for a digital jigsaw puzzle game (**Event Sourcing Illustrated web-application**), developing **React** based UI, **.NET Core** backend services, and utilizing **Docker** for containerization, with a focus on security and code reliability using **Clean Architecture**.
- Contributed to the development of a cloud-based solution that exposes consumer and business data via web interface and API, utilizing **SSIS packages** and **MS SQL Server** for data manipulation and creating an administration portal for effective data management using advanced sql methods (**Stored Procedures, functions, CTE, TVP**, etc).

Trainee Software Engineer

Sep 2023 - Nov 2023

Fidenz (Pvt) Ltd | Sri Jayawardanapura Kotte, Sri Lanka | Full-time

- Developed of an inventory management platform for large-scale industries as part of the training process, focusing on research, design, and project estimation. Implemented secure **RESTful APIs** using **JWT Authentication**, using **Dependency Injection** and **Repository Pattern**.
- Implemented responsive and pixel perfect web application with the use of **PerfectPixel** Google extension.
- Developed web application to get in touch with weather information that implemented with **Auth0 Authentication & OpenWeatherMap API** using **React**.
- Exposure to the **Agile-Scrum** development environment by following **JIRA**, **Confluence** and **Bitbucket** for maintain active collaboration with team members.

Education

Bachelor Of Computer Science (BCS) | GPA: 3.21 / 4.00

Feb 2020 - Feb 2024

Second Class Lower Division Honours

University Of Ruhuna, Matara, Sri Lanka

GCE Advanced Level Examination - 2018

Aug 2015 - Aug 2018

Combined Mathematics - B | Chemistry - B | Physics - B

Bandaranayake Central College, Veyangoda, Sri Lanka

Skills

- Language Exposure:** C#, Typescript, Javascript, Dart, JQuery, Java
- Framework And Technologies:** .NET Framework, .NET Core, Entity Framework, Springboot
- Frontend Technologies:** React Js, HTML5, Tailwind CSS, JSON, Redux, Bootstrap
- Database Management:** MS SQL Server, pgAdmin4
- Development Tools And Practices:** Git, JIRA, Bitbucket, Docker, Source Tree, Confluence
- Software Design:** Object-Oriented Programming, Clean Architecture, MVC Architecture, SOLID
- Agile Methodologies:** SCRUM Development

Project Experience

Inventory Control System Database And API API for manage large scaled inventories in warehouses with the use of .NET best practices. Tech Stack: .NET Core Entity Framework JWT pgAdmin4 OOP N-Tier Architecture REST API	Mar 2024
ServNet - Service Provider Platform API Educational domain API development with familiarise the use of spring boot framework in Java. Tech Stack: Java Spring Boot Hibernate JWT MVC	Mar 2024
Customer Management Frontend & API Integration Backend web server to manage customers' data that implemented with the use of Three-Tier Architecture. Tech Stack: C# .NET Core MS SQL Server Rest API JWT 3-Tier	Nov 2023
Responsive & Perfect Pixel Website (PhotoApp UI) Responsive and Pixel Perfect website development with the use of 'PerfectPixel' Google extension. Tech Stack: HTML CSS JS PerfectPixel VS code Photopea	Sep 2023
Weather Application with OpenWeatherMap API Web application to get in touch with weather information that implemented with Auth0 authentication & OpenWeatherMap API Tech Stack: Redux React CSS OpenWeatherMap API Auth0	Sep 2023
Restaurant Internal Process Management System An platform Automated restaurant operations with multi-user access. Collaborative development project in university. Tech Stack: MERN Flutter JWT Stripe Material UI Andriod Studio	Jun 2023

Licenses & Certifications

Advanced Database Management Essentials - Coursera Learning

Foundations Of User Experience (UX Design) - Coursera Learning

Clean Architecture in .NET Core [.NET 8] - Udemy Learning

Rest Api's in Asp.Net Core and C# - Udemy Learning

REST API Security-BasicAuth-Authorization-JWT-OAuth-MFA-HMAC - Udemy Learning

Building Modern Projects With React - Linkedin Learning

Volunteering

Senior Media Unit Member Of LEO Club - District306A1 Responsible for designing event posts and sharing updates with the community while creating visually appealing graphics and ensuring that relevant event details are communicated effectively to the audience during the event. Tech Stack: Adobe Photoshop 2021 Adobe Premiere Pro 2022	Apr 2023 - May 2023
